Tree and Shrub Availability List -  
A shrub or bush is a small to  
medium-sized woody plant.  
Unlike herbs, shrubs have  
persistent woody stems above the  
ground. They are distinguished  
from trees by their multiple stems  
and shorter height, and are  
usually under 6 m (20 ft) tall.  
Plants of many species may grow  
either into shrubs or trees,  
depending on their growing  
conditions. Mon, 09 Jul 2018
